That our American rorests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. [Entered at the Postoffice of Alexandria, Virginia, as second-class matter.] CONDITIONS IN ASIATIC TUR-

KEY.

The situation in Asiatic Turkey is one of extreme gravity. How many thousands have been massacred cannot even be estimated, because the disturbances have been so widespread that it is impossible to secure details of the happenings of the last ten days. The la est estimates of the number killed in the valley of Adana reaches approximately 25,000, and thousands have been done to death in the towns of other districts. The state of stege which several of the The state of stege which several of the places are undergoing, has brought the inhabitants to the verge of starvation, and each day brings its tales of further actrocities and the depths of misery and

despair to which the savagery of the favatics has brought the people. Several warships are now in those waters, but the disorders are so farreaching that the efforts of the powers to restore normal conditions have as ye hardly been felt. The French cruises Jules Forry arrived at Bairut yesterday and left almost immediately for Latakia where swarms of refugees are pouring in British, French and German warship are at other ports, and marines have been landed to quell disorders, as far as possible, at the more important points. Out of the missionaries at Alexan-drietts, Mr. Kennedy, with 450 Turkish troops, has gove to the relief of Deurtyul, an Armenian village on the coast, where 10,000 people within the walls are besteged by immense bands of Kurds and Circassians. Only two days ago a British warship returned from that place, the governor of the district having reused the commander permission to land a relief party. The water supply has been cut of from the town, and the bes'eged are suffering greatly on that account. The children are drinking out was incessant fi.ing on Greek subjects

Dispatches bring tidings of Armenian and Turkish conflicts all over the country. Dr. J. M. Ba'ph, who is in charge of the missions at Latskia, Syria, telegraphs that refugees are arriving there from out-lying parts of the dis-rict, who report masacres and the burntowns. He also reports that here is the greatest apprehension con-eroing conditions at Kessab, where Miss

"Hapless outbreaks as Adana. The Christians have suffered much loss of life and property. Their dis-rict is in flames. 15,000 are now destitute Thousands of dollars will be required daily. They have bread alone, but lack medical supplies. The our emergency hospitals are thready overcrowded. Two large orplanages are required at once. We will commence the sale now soon, and will start these beautiful lots at floo up—\$10 cash and \$5 per month. The price will be advanced to per cent per month until they are closed out. We commence at this low price to enable the early buyers to always be certain of being able to sell at a good profit in case they wish to do so, as the company will have no lots for sale after the first month, except at good profit in case they wish to do so, as the company will have no lots for sale after the first month, except at an advance of 10 per cent.
